Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 21-29 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. A pulse sequence is considered to be a type of signal which does not encompass any of the statutory categories of invention.

Applicant's attention is invited to MPEP 2106 which states "Claims that recite nothing but the physical characteristics of a form of energy, such as a frequency, voltage, or the strength of a magnetic field, define energy or magnetism, per se, and as such are nonstatutory natural phenomena. O'Reilly v. Morse, 56 U.S. (15 How.) 62, 112-14 (1853)."

Allowable Subject Matter

Claims 1-20 are allowable over the prior art of record.

Response to Arguments

Applicant's arguments filed February 18, 2004 have been fully considered but they are not persuasive. The case law cited in MPEP 2106 is not directed to the same fact situation as the invention set forth in claims 21-29. The claims are not directed to a practical application. The claims fail to positively set forth any means for producing the pulses or means for acquiring MR data after the pulses have been applied to a patient's body. Therefore, the claims merely set forth a series of pulses of electromagnetic radiation with the intended use that they be directed to a slab of slices in the patient's body.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
